EXHIBIT A  
CBE NO. 603318-14  
SCOPE OF WORK  
MOUNTAIN'S EDGE PARK: ADULT BALL FIELDS AND SITE IMPROVEMENTS (RP.F0414049)

DESCRIPTION OF PROJECT:  Project consists of four (4) 90-feet adult baseball fields located south of Mountain's Edge Parkway at Cimarron Road. These fields are to be tournament quality fields with one (1) championship field. The project also includes score boards, seating areas, restrooms, concession facilities, broadcast booth, and, 200 – 400 parking spaces.

PROJECT LOCATION:  This project is located within unincorporated Clark County in the southwest portion of the Las Vegas Valley, bounded on the north by Mountain's Edge Parkway, on the south by Cactus Avenue, and on the west by Durango Drive, a portion of Section 2, Township 22 South, Range 60 East.

BACKGROUND:  Ball fields were part of the Mountain's Edge Park Master Plan. This project is to fulfill that portion of the master plan.

OWNER'S REPRESENTATIVE AND INVOICE SUBMITTAL:  PETER UMOH, DESIGN & CONSTRUCTION ADMINISTRATOR  
Clark County Real Property Management Department (RPM)  
500 South Grand Central Parkway, 4th Floor  
P.O. Box 551825  
Las Vegas, Nevada 89155-1825  
Telephone Number: (702) 455-4921

PROJECT CONSTRUCTION BUDGET:  PROJECT shall be designed so that the construction cost shall not exceed $7,187,225.

PROJECT COMPLETION:  The Work for the Project shall be completed in final, approved form, presented to RPM and filed into the jurisdictional building department (within which the project resides) plans check process, no later than three hundred and twenty two (322) calendar days after the Notice to Proceed is issued. The Consultant Agreement shall be considered to be in full force and effect based upon consultant's completion of the services enumerated in the Exhibits and beginning from the date the Consultant receives "notice to proceed".

Completion of services shall be completed within the timeframe described in the above paragraph, and before December 31, 2016, unless such date is amended by the Owner.

SCOPE:  Project Scope
- Four (4) Tournament quality adult baseball fields; natural turf, lights, and bleachers with shade structure
- Parking, site improvements, and lighting
- Provide warm-up area next to dugout
- Provide fertigation system.
- Provide upgraded in-field of decomposed granite "fines"
- Announcer booth (80 s.f. with stairs)
• Restrooms/concession stand with seating area
• Batting cage.
• Enhanced entry to Ball Field Park
• Landscaping, Irrigation, and walkways
• Off-site construction
• One (1) of the four fields to be a Championship field with enhancements such as:
  o Provide 50% additional bleachers with fabric shade.
  o Provide score board.
  o Provide fabric shade over dugout.
  o Provide cmu walls in lieu of chain-link at select areas

**Design Services Scope of Work (described below and in Exhibits A, B, C, D, E, and F)**

**TASK-1 – Programming Phase**

a. The goal of this phase is to review and confirm the design direction and projects scope as it relates to the County’s specified not to exceed construction budget. The projects scope in terms of the ball field’s amenities, quality, general detailing, supporting park elements along with the project goals and objectives will be discussed and decided upon.

b. The design team will conduct a visual Tour of Industry of similar level of adult ball fields with the project stakeholders to help outline and define the project’s needs, design features and general design direction.

c. A critical component of this phase will be matching up the projects conceptual costs with the requested scope of work to refine the projects scope to meet the budget as required. Stakeholder input, direction, and confirmation at this phase will be critical to the projects development. Since the projects not to exceed budget clearly sets the project’s design parameters, the design team plans to approach this projects design from the standpoint of what will match up within these parameters as they align with the Owner’s stakeholders groups goals and objectives for the project.

d. Preliminary design concepts will be investigated as they relate to helping to better determine the projects conceptual construction costs based upon the project sites constraints, general site placement as it relates to known topographical elements and its relation to on-site and off-site project improvements necessary.

e. The design Team has budgeted three (3) stakeholder / Owner review meetings during this phase of the design.

f. Deliverables – Programming Report summarizing the ball fields design parameters, quality level and quantity of items to be included in the project, budget reconciliation with final project scoping parameters which subsequent design phases will be based upon.
   i. Five (5) copies of this 8-1/2 x 11 (or 11 x17) format document will be provided which will include a conceptual cost estimate.
   ii. Clark County Project stakeholders will be asked to sign off on this document once finalized in order to confirm the direction the project will be based upon into design.

**TASK-2 - Schematic Design Phase (20% Design)**

a. After the completion and Clark County signed off approval of the programmatic design phase and program document produced during that phase, the design team will begin to test fit the projects conceptual design upon the selected site location for the schematic review phase.

b. Up to three (3) design options will be explored for potential park layout, alignment and development for the project stakeholder’s review and decision.

c. Major design features of the park will be presented, explored and discussed in more detail with the group for potential integration into the project’s design. Elements such as designs for shade canopies, designs for parks enhanced entry, layouts for parking and quantity and layouts will be presented and evaluated.
d. At the discretion of the County, the TSKA Design Team will participate in one (1) neighborhood outreach presentation and present design criteria for the future development of the park to the local community and other outside adult baseball organizations that the County may feel should be involved in the parks development.
   i. This meeting is anticipated to occur towards the end of this design phase once the project stakeholders have approved the park concept (or concepts) to show to the public for review.

e. The design Team has budgeted four (4) stakeholder / Owner review meetings during this phase of the design.

f. Deliverables – Schematic Design drawings of up to three (3) site layout options and one outline specification index for project stakeholder review. One (1) estimate of probable construction cost for each of the site concepts presented.
   i. Five (5) half size hard copies (21x15) drawings and 8-1/2 x 11 specification index will be provided.
   ii. Two (2) copies of the construction cost estimate will be provided.

**TASK-3 – Design Development Phase (40% Design)**

a. After the completion of the Schematic Design phase and the project stakeholder group makes their final selection of the single projects design concept to move forward with, the design team will begin refining the selected concept into the Design Development phase.

b. At the discretion of the County, the TSKA Design Team will participate in one (1) ADA 504 Outreach Meeting to present design criteria for the future development of the park to the local community and other organizations that the County may feel should be involved in the parks development.
   i. The integration and involvement of the ADA 504 community during the design development phase will be better suited to the design team reviewing and potentially integrating the local communities requests into the project at the direction of the project stakeholder group.

c. Towards the end of the Design Development phase, the TSKA Design Team will participate in one (1) Follow Up neighborhood outreach presentation and present the refined design criteria for the future development of the park to the local community and other outside adult baseball organizations that the County may feel should be involved in the parks development.

d. The design Team will submit for the Clark County Planning Design Review process – for land use and development requirements.

e. At the discretion of the County, the TSKA Design Team will participate in one (1) Town Board presentation and present the project’s design to the Town Board and local community in attendance for review and approval. This approval will be necessary in order to submit the project for review and approval by the Board of County Commissions (BCC) meeting.

f. The design Team has budgeted four (4) stakeholder / Owner review meetings during this phase of the design.

g. Deliverables – Design Development drawings of the selected and refined site layout option and outline specifications for project stakeholder review.
   i. Five (5) half size hard copies (21x15) drawings and 8-1/2 x 11 specification index will be provided.
   ii. Two (2) copies of the construction cost estimate will be provided.

**TASK-4a – Construction Document Phase (60% Design)**

a. After the completion of the Design Design phase and the project stakeholder group has conducted their review and approved the design concept elements to move forward with, the design team will begin refining the selected concept into the Construction Document 60% design phase.

b. At the discretion of the County, the TSKA Design Team will participate in one (1) Board of County Commission (BCC) presentation and present the project’s design to BCC and local community in attendance for review and approval. This approval will be necessary in order to complete the Design Review and land use requirements.

c. The design Team has budgeted three (3) stakeholder / Owner review meetings during this phase of the design.
d. Deliverables – 60% Construction Document design drawings of projects design and draft project specification for stakeholder review.
   i. Five (5) half size hard copies (21x15) drawings and 8-1/2 x 11 specification index will be provided.
   ii. Two (2) copies of the construction cost estimate will be provided.

TASK-4b – Construction Document Phase (95% and 100% Design)

a. After the completion of the 60% Construction Document Design phase and the project stakeholder group has conducted their review and approved the design documents submitted, the design team will begin finalizing the selected concept into the Construction Documents 95% and subsequent 100% design phase packages.

b. At the completion of the 100% design phase submittal by the project stakeholders, the design team will submit the design documents to the Authorities Having Jurisdiction for plans check review and permitting approvals.

c. The design Team has budgeted three (3) stakeholder / Owner review meetings during this phase of the design.

d. Deliverables:
   i. 95% Construction Document design drawings of projects design and project specification for stakeholder review.
      • Five (5) half size hard copies (21x15) drawings and 8-1/2 x 11 specification index will be provided.
      • Two (2) copies of the construction cost estimate will be provided.
   ii. 100% Construction Document design drawings of projects design and project specification for stakeholder review.
      • Five (5) half size hard copies (21x15) drawings and 8-1/2 x 11 specification index will be provided.
      • Two (2) copies of the construction cost estimate will be provided.

TASK-5 – Bidding Assistance

a. During the projects bid phase, the design team will assist with responding to Bidders Questions and / or Requests for Information along with providing any necessary bid addenda to clarify items within the project’s design for the bidders.

b. The design Team has budgeted One (1) pre-bid meeting with the Owner and prospective bidders during this phase of the design.

c. Deliverables –
   i. Bid Set Deliverables: Two (5) compact disks of the bid documents in PDF format shall be provided to Clark County as the projects bid documents which will be made available to the prospective bidders at the start of the bid phase.
      • Hardcopy drawings are not required at this phase since the Bid Sets will be distributed electronically to the prospective bidders by Clark County.
   ii. Construction Set Deliverables: Fifteen (15) “Issued for Construction” sets of drawings and specifications will be provided at the end of the Bid Phase which incorporates all addendum and drawings revisions conducted through the bid and permitting phase – so the construction phase will begin with a clean set of drawings for construction administration efforts.
      • Five (5) of the 15 sets of drawings will be submitted to RPM.
      • Ten (10) of the 15 sets of drawings will be submitted to the Construction Contractor.

TASK-6 - Construction Contract Administration

a. During this phase of the project, the design team will be available for review and response to Contractor generated RFIs, product submittals, contractors pay requests, and contractor generated change orders.

b. The design Team has budgeted thirty six (36) stakeholder / Owner review meetings during this phase of the design. This is based on the assumption of weekly or close to weekly construction administration review meetings over a nine (9) month construction duration.

c. Deliverables – Review and response to RFI’s, Submittals, Pay Requests and Change Orders.
d. Not included in proposed scope (but available as an additional service) would be “Extenced Contract Administration / Management” services as noted in the RPM standard contract. Per our pre-proposal scoping meeting held on 03/13/14 it was determined that Extended CA would not be necessary by our design Team under this contract at this time.

TASK-7 – Project Closeout

a. The design team will generate Record Drawings based upon the Contractor’s red lined As-Built information that the Contractor prepares onto the design Teams “Issued for Construction” set of documents.
   i. The Record Drawings will incorporate the Contractors As-Built data provided, but it will not be the design team’s responsibility to verify the completeness or accuracy of the Contractor’s as-built data provided.

b. The design team will review and approve the Contractor provided close out documents noted in the project contract documents requirements.

Project Scope Assumptions and Exclusions:

1. For the outreach meetings on the project, it is our assumption that Clark County will handle assembling and mailing out the individual meeting invitation postcard mailers to the general public in the vicinity of the park.
   a. This has been our experience on past projects as being the most cost effective way to handle this mass mailing since the County has access to the local community residential and commercial address database of the local community that the parks development should be involved with.
   b. If it is determined the design team will need to handle assembling and mailing the outreach meeting design mailers, this will require an additional design service fee from the team.

2. Extended site representation and/or extended CA site services is currently not included in the scope of work and fees presented.

3. It is assumed the current scope of work for this project does not include design for fire suppression system.

4. Additional printing of construction documents for approvals, bidding or construction beyond what is listed in the reimbursable printing worksheet attached to this proposal is not included in the submitted fees.

5. Permits, fees, and other costs associated with obtaining governmental approvals are not included.
   a. The design team will facilitate the submittal of plans through the permitting process – but will require the permit fees be paid separately by the client.

6. Building Department Plans Check Fees, Expedited Plans Check Fees and other regulatory permits are the client’s responsibility and are not included.
   a. The TSKA team will assist with determining these fees once the cost of construction is better defined – and will submit the Permit drawings to the building department for review – but have not included the actual plans check fees in this fee proposal.
   b. Plans check fees are due to the building department at the time the plan are submitted for review. Building permit fees (separate from building plans check fees) are due after the plans have been approved through building plans check.

7. Billing will be monthly by percent completed.

### Key

- **C** = Consultant (Architect or Engineer)
- **O** = Owner (Clark County Real Property Management)
- **NIC** = Not In Contract
- **J** = Joint Responsibility between Owner & Consultant
A. DESIGNATED SERVICES:

OWNER and CONSULTANT shall provide the phases and services designated therein and described herein. Unless the responsibility for a Project phase or service is specifically allocated in the Schedule of Designated Services to the OWNER or CONSULTANT, such phase or service shall not be a requirement of this Contract.

B. PHASES OF DESIGNATED SERVICES

1. Pre-Design Phase. The Pre-Design Phase is the stage in which the OWNER’S program, the financial and time requirements, and the scope the Project are established.

2. Site Analysis Phase. The Site Analysis Phase is the stage in which site-related limitations and requirements for the Project are established.

3. Schematic Design Phase. The Schematic Design Phase is the stage in which the general scope, conceptual design, and the scale and relationship of components of the Project are established.

4. Design Development Phase. The Design Development Phase is the stage in which the size and character of the Project are further refined and described, including architectural, structural, mechanical and electrical systems, materials, and such other elements as may be appropriate.

5. Contract Documents Phase. The Contract Documents Phase is the stage in which the requirements for the Work are set forth in detail.

6. Bidding or Negotiations Phase. The Bidding or Negotiations Phase is the stage in which bids or negotiated proposals are solicited and obtained and in which contracts are awarded.

7. Contract Administration Phase. The Contract Administration Phase is the stage in which the Work is performed by one or more Contractors.

8. Post-Contract Phase. The Post-Contract Phase is the stage in which assistance in the OWNER’S use and occupancy of the Project is provided.

9. Supplemental Services. Supplemental Services may be provided, however, during a single phase or several phases and may not necessarily follow the normal chronological sequence.

C. DESCRIPTIONS OF DESIGNATED SERVICES

A. PROJECT ADMINISTRATION AND MANAGEMENT SERVICES

  .01 Project Administration services consisting of administrative functions including:

    .01 Consultation
    .02 Research
    .03 Conferences
    .04 Communications
    .05 Travel time
    .06 Progress reports
    .07 Direction of the work of in-house architectural personnel
    .08 Coordination of work by the OWNER’S forces

  .02 Disciplines Coordination/Document Checking consisting of:

    .01 Coordination between the architectural work and the work of engineering and other disciplines involved in the Project
    .02 Review and checking of documents prepared for the Project by the CONSULTANT and the CONSULTANT’S subconsultant(s).

  .03 Agency Consulting/Review/Approval services, including:

    .01 Agency consultations
    .02 Research of critical applicable regulations
    .03 Research of community attitudes
    .04 Preparation of written and graphic explanatory materials
    .05Appearances of OWNER’S behalf at agency and community meetings
The services below apply to applicable laws, statutes, regulations and codes of regulating entities and to reviews required of user or community groups with limited or no statutory authority but significant influence on approving agencies and individuals, including:

.06 Local political subdivisions
.07 Planning boards
.08 County agencies
.09 Regional agencies
.10 Federal agencies
.11 User organizations
.12 Community organizations
.13 Consumer interest organizations
.14 Environmental interest groups

.04 OWNER-Supplied Data Coordination, including:

.01 Review and coordination of data furnished for the Project as supplied by the OWNER
.02 Assistance in establishing criteria
.03 Assistance in obtaining data, including, where applicable, documentation of existing conditions

.05 Schedule Development/Monitoring services, including:

.01 Establishment of initial schedule for CONSULTANT’S services, decision-making, design, documentation, contracting and construction, based on determination of scope of CONSULTANT’S services
.02 Review and update of previously established schedules during subsequent phases

.06 Preliminary Estimate of the Cost of the Work, including:

.01 Preparation of a preliminary estimate of the Cost of the Work
.02 Review and update the preliminary estimate of the Cost of the Work during subsequent phases

.07 Presentation services consisting of presentations and recommendations by the CONSULTANT to the following client representatives:

.01 OWNER
.02 Building committee(s)
.03 Staff committee(s)
.04 User group(s)
.05 Board(s) of Directors
.06 Financing entity (entities)
.07 OWNER’S Consultant(s)

B. PRE-DESIGN SERVICES

.08 Programming services consisting of consultation to establish and document the following detailed requirements for the Project:

.01 Design objectives, limitations and criteria
.02 Development of initial approximate gross facility areas and space requirements
.03 Space relations
.04 Number of functional responsibilities personnel
.05 Flexibility expandability
.06 Special equipment and systems
.07 Site requirements
.08 Development of a preliminary budget for the Work based on programming and scheduling studies
.09 Operating procedures
.10 Security criteria
.11 Communications relationships
.12 Project schedule

.09 Space Schematics/Flow Diagrams consisting of diagrammatic studies and pertinent descriptive text for:

.01 Conversion of programmed requirements to net area requirements
.02 Internal functions
.03 Human, vehicular and material flow patterns
.04 General space allocations
.05 Analysis of operating functions
.06 Adjacency
.07 Special facilities and equipment
.08 Flexibility and expandability

.10 **Existing Facilities Surveys** consisting of researching, assembling, reviewing and supplementing information for Projects involving alterations and additions to existing facilities or determining new space usage in conjunction with a new building program and including:

.01 Photography
.02 Field measurements
.03 Review of existing design data
.04 Analysis of existing structural capabilities
.05 Analysis of existing mechanical capabilities
.06 Analysis of existing electrical capabilities
.07 Review of existing drawings for critical inaccuracies, and the development of required measured drawings

.11 **(NOT APPLICABLE) Marketing Studies** relating to determination of social, economic and political need for and acceptability of the Project and consisting of:

.01 Determination with OWNER of the scope, parameters, schedule and budget for marketing studies
.02 Identification, assembly, review and organization of existing pertinent data
.03 Arrangement of clearances for use of existing data
.04 Mail survey studies
.05 Personal survey studies
.06 Analysis of data
.07 Assistance in obtaining computerized analysis and modeling
.08 Computerized analysis and modeling
.09 Preparation of interim reports
.10 Preparation of final report
.11 Assistance production of final report

.12 **(NOT APPLICABLE) Economic Feasibility Studies** consisting of the preparation of economic analysis and feasibility evaluation of the Project based on estimates of:

.01 Total Project cost
.02 Operation and ownership cost
.03 Financing requirements
.04 Cash flow for design, construction and operation
.05 Return on investment studies
.06 Equity requirements

.13 **(NOT APPLICABLE) Project Financing** services as required in connection with:

.01 Assistance to OWNER in preparing and submitting data, supplementary drawings and documentation
.02 Research of financing availability
.03 Direct solicitation of financing sources by the CONSULTANT

Project financing services are required for:

.04 Development costs
.05 Site control and/or acquisition
.06 Pre-design and site analysis services
.07 Planning, design, documentation and bidding services
.08 Interim or construction financing
.09 Permanent or long-term financing

C. **SITE DEVELOPMENT SERVICES**

.14 **(NOT APPLICABLE) Site Analysis and Selection** consisting of:

.01 Identification of potential site(s)
.02 On-site observations
.03 Movement systems, traffic and parking studies
.04 Topography analysis
05 Analysis of deed, zoning and other legal restrictions
06 Studies of availability of labor force to staff OWNER’S facility
07 Studies of availability of construction materials, equipment and labor
08 Studies of construction market
09 Overall site analysis and evaluation
10 Comparative site studies

.15 Site Development Planning consisting of preliminary site analysis, and preparation and comparative evaluation of conceptual site development designs, based on:

01 Land utilization
02 Structures placement
03 Facilities development
04 Development phasing
05 Movement systems, circulation and parking
06 Utilities systems
07 Surface and subsurface conditions
08 Ecological studies
09 Deeds, zoning and other legal restrictions
10 Landscape concepts and forms

.16 Detailed Site Utilization Studies consisting of detailed site analyses, based on the approved conceptual site development design, including:

01 Land utilization
02 Structures placement
03 Facilities development
04 Development phasing
05 Movement systems, circulation and parking
06 Utilities systems
07 Surface and subsurface conditions
08 Review of soils report
09 Vegetation
10 Slope analysis
11 Ecological studies
12 Deeds, zoning and other legal restrictions
13 Landscape forms and materials

.17 On-Site Utility Studies consisting of establishing requirements and preparing initial designs for on-site:

01 Electrical service and distribution
02 Gas service and distribution
03 Water supply and distribution
04 Site drainage
05 Sanitary sewer collection and disposal
06 Process waste water treatment
07 Storm water collection and disposal
08 Central-plant mechanical systems
09 Fire systems
10 Emergency systems
11 Security
12 Pollution control
13 Site illumination
14 Communications systems

.18 Off-Site Utility Studies consisting of:

01 Confirmation of location, size and adequacy of utilities serving the site
02 Determination of requirements for connections to utilities
03 Planning for off-site utility extensions and facilities
04 Design of off-site utility extensions and facilities

.19 (NOT APPLICABLE) Environmental Studies and Reports consisting of:

01 Determination of need or requirements for environmental monitoring, assessment and/or impact statements
02 Ecological studies
.03 Preparation of environmental assessment reports
.04 Preparation of environmental impact reports
.05 Attendance at public meetings and hearings
.06 Presentations to governing authorities

.20 **Zoning Processing Assistance** consisting of:

.01 Assistance in preparing applications
.02 Development of supporting data
.03 Preparation of presentation materials
.04 Attendance at public meetings and hearings

.21 **Geotechnical Engineering** services, including, but not limited to:

.01 Test borings, test pits, determinations of soil bearing values, percolation tests, evaluations of hazardous materials, ground corrosion and resistivity tests, including necessary operations for anticipating subsoil conditions.
.02 Reports and appropriate professional recommendations.

.22 **Site Surveying** services, to include:

.01 Furnishing a survey by licensed surveyor, describing the physical characteristics, legal limitations and utility locations for the site of the Project, including a written legal description of the site.
.02 Include, as applicable, grades and lines of streets, alleys, pavements and adjoining property and structures; adjacent drainage; rights-of-way, restrictions, easements, encroachments, zoning, deed restriction, boundaries and contours of the side, locations, dimensions and necessary data pertaining to existing buildings, other improvements and trees, and information concerning available utility services and lines, both public and private, above and below grade, including inverts and depths. All information shall be referenced to a project benchmark.

D. **DESIGN SERVICES**

.23 **Architecture Design/Documentation:**

.01 During the Schematic Design Phase, responding to program requirements and preparing:

.01 Review of OWNER'S Program and Budget
.02 Conceptual site and building plans
.03 Preliminary sections and elevations
.04 Preliminary selection of building systems and materials
.05 Development of approximate dimensions, areas and volumes
.06 Perspective sketch(es)
.07 Study model(s)

.02 During the Design Development Phase consisting of continued development expansion of Architecture Schematic Design Documents to establish the final scope, relationships, forms, size and appearance of the Project through:

.01 Plans, sections and elevations
.02 Typical construction details
.03 Three-dimensional sketch(es)
.04 Study model(s)
.05 Final materials selection
.06 Equipment layouts

.03 During the Contract Documents Phase consisting of preparation of Drawings based on approved Design Development Documents setting forth in detail the architectural construction requirements for the Project.

.24 **Structural Design/Documentation:**

.01 During the Schematic Design Phase consisting of recommendations regarding basic structural materials and systems, analyses, and development of conceptual design solutions for:

.01 A predetermined structural system
.02 Alternate structural systems
During the Design Development Phase consisting of continued development of the specific structural system(s) and Schematic Design Documents in sufficient detail to establish:

- Basic structural system and dimensions
- Final structural design criteria
- Foundation design criteria
- Preliminary sizing of major structural components
- Critical coordination clearances
- Outline Specifications or materials lists

During the Contract Documents Phase consisting of preparation of final structural engineering calculations, Drawings and Specifications based on approved Design Development Documents, setting forth the detail the structural construction requirement for the Project.

**Mechanical Design/Documentation:**

During the Schematic Design Phase consisting of consideration of alternate materials, systems and equipment, and development of conceptual design solutions for:

- Energy source(s)
- Energy conservation
- Heating and ventilating
- Air conditioning
- Plumbing
- Fire protection
- General space requirements

During the Design Development Phase consisting of continued development expansion of mechanical Schematic Design Documents and development of outline Specifications or materials lists to establish:

- Approximate equipment sizes and capacities
- Preliminary equipment layouts
- Required space for equipment
- Required chases and clearances
- Acoustical and vibration control
- Visual impacts
- Energy conservation measures

During the Contract Documents Phase consisting of preparation of final mechanical engineering calculations, Drawings and Specifications based on approved Design Development Documents, setting forth in detail the mechanical construction requirements for the Project.

**Electrical Design/Documentation:**

During the Schematic Design Phase consisting of consideration of alternate systems, recommendations regarding basic electrical materials, systems and equipment, analyses, and development of conceptual solutions for:

- Power service and distribution
- Lighting
- Telephones
- Fire detection and alarms
- Security systems
- Electronic communications
- Special electrical systems
- General space requirements

During the Design Development Phase consisting of continued development expansion of electrical Schematic Design Documents and development of outline Specifications or materials lists to establish:

- Criteria for lighting, electrical and communications systems
- Approximate sizes and capacities of major components
- Preliminary equipment layouts
- Required space for equipment
- Required chases and clearances
During the Contract Documents Phase consisting of preparation of final electrical engineering calculations, Drawings and Specifications based on approved Design Development Documents, setting forth in detail the electrical requirements for the Project.

Arc Flash Analysis and Design Services are included and provided by Consultant

Civil Design/Documentation:

During the Schematic Design Phase consisting of consideration of alternate materials and systems and development of conceptual design solutions for:

- On-site utility systems
- Fire protection systems
- Drainage systems
- Paving

During the Design Development Phase consisting of continued development and expansion of Civil Schematic Design Documents and development of outline Specifications or materials lists to establish the final scope of and preliminary details for on-site and off-site civil engineering work.

During the Contract Documents Phase consisting of preparation of final civil engineering calculations, Drawings and Specifications based on approved Design Development Documents, setting forth in detail the civil construction requirements for the Projects.

Landscape Design/Documentation:

During the Schematic Design Phase consisting of consideration of alternate materials, systems and equipment and development of conceptual design solutions for land forms, lawns and plantings based on program requirements, physical site characteristics, design objectives and environmental determinants.

During the Design Development Phase consisting of continued development and expansion of landscape Schematic Design Documents and development of outline Specifications or materials lists to establish final scope and preliminary details for landscape work.

During the Contract Documents Phase consisting of preparation of Drawings and Specifications based on approved Design Development Documents, setting forth in detail the landscape requirements for the Project.

(NOT APPLICABLE) Interior Design/Documentation:

During the Schematic Design Phase consisting of space allocation and utilization plans based on functional relationships, consideration of alternate materials, systems and equipment development conceptual design solutions for architectural, mechanical, electrical and equipment requirements in order to establish:

- Partition locations
- Furniture and equipment layouts
- Types and qualities of finishes and materials for furniture, furnishings and equipment

During the Design Development Phase consisting of continued development and expansion of interior Schematic Design Documents and development of outline Specifications or materials lists to establish final scope and preliminary details relative to:

- Interior construction of the Project
- Special interior design features
- Furniture, furnishings and equipment selections
- Materials, finishes and colors

During the Contract Documents Phase consisting of preparation of Drawings, Specifications and other documents based on approved Design Development Documents, setting forth the detail the requirements for interior construction and for furniture, furnishings and equipment for the Project.

(NOT APPLICABLE) Special Design/Documentation, including:

Preparation and coordination of special Drawings and Specifications for obtaining bids or prices on alternate subdivisions (additive alternates) of the Work.
Preparation and coordination of special Drawings and Specifications for obtaining alternate bids or prices on changes in the Scope of Work.

Preparation and coordination of Drawings, Specifications, Bidding Documents and schedules for out-of-sequence bidding or pricing of subdivisions of the Work.

Preparation and coordination of Drawings, Specifications and Bidding Documents for multiple prime contracts for subdivisions of the Work.

**Materials Research/Specifications:**

During the Schematic Design Phase consisting of:

- Identification of potential architectural materials, systems and equipment and their criteria and quality standards consistent with the conceptual design
- Investigation of availability and suitability of alternative architectural materials, systems and equipment
- Coordination of similar activities of other disciplines

During the Design Development Phase consisting of activities by OWNER’S architectural staff in:

- Presentation of proposed General and Supplementary Conditions of the Contract for OWNER’S approval
- Development of architectural outline Specifications or itemized lists and brief form identification of significant architectural materials, systems and equipment, including their criteria and quality standards
- Coordination of similar activities of other disciplines
- Production of design manual including design criteria and outline Specifications or materials lists

During the Contract Documents Phase consisting of activities of OWNER’S architectural staff in:

- Assistance to the OWNER in development and preparation of bidding and purchasing information which describes the time, place and conditions of bidding, bidding forms, and the form(s) of Contract between the OWNER and Contractor(s)
- Assistance to the OWNER in development and preparation of the Conditions of the Contract (General, Supplementary and other Conditions)
- Development and preparation of architectural Specifications describing materials, systems and equipment, workmanship, quality and performance criteria required for the construction of the Project
- Coordination of the development of Specifications by other disciplines
- (NOT APPLICABLE) Compilation of Project Manual including Conditions of the Contract, bidding and procurement information and Specifications

**BIDDING OR NEGOTIATION SERVICES**

Bidding Materials services consisting of organizing and handling Bidding Documents for:

- Coordination
- Reproduction
- Completeness review
- (NOT APPLICABLE) Distribution
- (NOT APPLICABLE) Distribution records
- (NOT APPLICABLE) Retrieval
- (NOT APPLICABLE) Receipt and return of document deposits
- Review, repair and reassembly of returned materials

Addenda services consisting of preparation of Addenda information as may be required during bidding or negotiations and including supplementary Drawings, Specifications, instructions and notice(s) of changes in the bidding schedule and procedure. Distribution of Addenda performed by Clark County Purchasing and Contracts.

Bidding/Negotiation services consisting of:

- Assistance of OWNER in establishing list of Bidders or RESPONDENTs
- (NOT APPLICABLE) Prequalification of Bidders or RESPONDENTs
- Participation in pre-bid conferences
- Responses to OWNER regarding questions received from Bidders or RESPONDENTs and clarifications or interpretations of the Bidding Documents
.05 Attendance at bid opening(s)
.06 (NOT APPLICABLE) Documentation and distribution of bidding results

.35 Analysis of Alternates/Substitutions consisting of consideration, analyses, comparisons, and recommendations relative to alternates or substitutions proposed by Bidders or RESPONDENTs either prior or subsequent to receipt of Bids or proposals.

.36 (NOT APPLICABLE) Special Bidding services consisting of:
.01 Attendance at bid openings, participation in negotiations, and documentation of decisions of multiple contracts or phased Work
.02 Technical evaluation of proposals for building systems
.03 Participation in detailed evaluation procedures for building systems proposals

.37 Bid Evaluation services consisting of:
.01 Validation of bids or proposals
.02 Participation in review of bids or proposals
.03 Evaluation of bids or proposals
.04 Recommendation on award of Contract(s)
.05 Participation in negotiations prior to or following decisions on award of the Contract(s)

.38 (NOT APPLICABLE) Contract Award services consisting of:
.01 Notification of Contract award(s)
.02 Assistance in preparation of Construction Contract forms for approval by OWNER
.03 Preparation and distribution of sets of Contract Documents for execution by parties to the Contract(s)
.04 Receipt, distribution and processing, for OWNER'S approval of required certificates of insurance, bonds and similar documents
.05 Preparation and distribution to Contractor(s), on behalf of the OWNER, of notice(s) to proceed with the Work

F. CONTRACT ADMINISTRATION SERVICES

.39 Submittal Services consisting of:
.01 Processing of submittals, including receipt, review of, and appropriate action of Shop Drawings, Project Data, Samples and other submittals required by the Contract Documents
.02 Distribution of submittals to OWNER, Construction Contractor and/or CONSULTANT'S field representative as required
.03 Maintenance of master file of submittals
.04 Related communications

.40 Observation Services consisting of visits to the site at intervals appropriate to the stage of the work or as otherwise agreed by the OWNER and CONSULTANT in writing to become generally familiar with the progress and quality of the Work completed and to determine in general if the Work when completed will be in accordance with Contract Documents, preparing related reports and communications.

.41 Project Representation consisting of selection, employment and direction of:
.01 Project Representative(s) whose specific duties, responsibilities and limitations of authority shall be set forth in an exhibit to be incorporated in this Contract.

.42 Testing and Inspection Administration relating to independent inspection and testing agencies, consisting of:
.01 Administration and coordination of field testing required by the Contract Documents
.02 Recommending scope, standards, procedures and frequency of testing and inspections
.03 Arranging for testing and inspection on OWNER'S behalf
.04 Notifying inspection and testing agencies of status of Work requiring testing and inspection
.05 Evaluating compliance by testing and inspection agencies with required scope, standards, procedures and frequency
.06 Review of reports on inspections and test and notification to OWNER and Construction Contractor(s) of observed deficiencies in the Work
.43 Supplemental Documentation services consisting of:
  .01 Preparing, reproduction and distribution of supplemental Drawings, Specifications and interpretations in response to requests for clarification by Construction Contractor(s) or the OWNER
  .02 Forwarding OWNER’S instructions and providing guidance to the Construction Contractor(s) on the OWNER’S behalf relative to changed requirements and schedule revisions

.44 Quotation Requests/Change Orders consisting of:
  .01 Preparation, reproduction and distribution of Drawings and Specifications to describe Work to be added, deleted or modified
  .02 Review of proposals from Construction Contractor(s) for reasonableness of quantities and costs of labor and materials
  .03 Review and recommendations relative to changes in time for Substantial Completion
  .04 Negotiations with Construction Contractor(s) on OWNER’S behalf relative to costs of Work proposed to be added, deleted or modified
  .05 Assisting in the preparation of appropriate Modifications of the Contract(s) for Construction
  .06 Coordination of communications, approvals, notifications and record-keeping relative to changes in the Work

.45 Contract Cost Accounting services consisting of:
  .01 Maintenance of records of payments on account of the Contract Sum and all changes thereto
  .02 Evaluation of Applications for Payment and certification thereof
  .03 Review and evaluation of expense data submitted by the Construction Contractor(s) for Work performed under cost-plus-fee arrangements

.46 (NOT APPLICABLE) Furniture, Furnishings and Equipment Installation Administration consisting of:
  .01 Assistance to the OWNER in coordinating schedules for delivery and installation of the Work
  .02 Review of final placement and inspection for damage, quality, assembly and function to determine that furniture, furnishings and equipment are in accordance with the requirements of the Contract Documents

.47 Interpretations and Decisions consisting of:
  .01 Review of claims, disputes or other matters between the OWNER and Contractor relating to the execution or progress of the Work as provided in the Contract Documents
  .02 Rendering written decisions within a reasonable time and following the procedures set forth in the General Conditions of the Contract for Construction or the General Conditions of the Contract, for Furniture, Furnishings and Equipment and for Resolution of Claims and disputes

.48 Project Closeout services initiated upon notice from the Construction Contractor(s) that the Work, or a designated portion thereof which is acceptable to the OWNER, is sufficiently complete, in accordance with the Contract Documents, to permit occupancy or utilization for the use for which it is intended, and consisting of:
  .01 A detailed inspection with the OWNER’S representative for conformity of the Work to the Contract Documents to verify the list submitted by the Construction Contractor(s) of items to be completed or corrected
  .02 Determination of the amounts to be withheld until final completion
  .03 Securing and receipt of the consent of surety or sureties, if any, to reduction in or partial release of retainage or the making of final payment(s)
  .04 Issuance of Certificate(s) of Substantial Completion
  .05 Inspection(s) upon notice by the Construction Contractor(s) that the Work is ready for final inspection and acceptance
  .06 Notification to OWNER and Construction Contractor(s) of deficiencies found in follow-up inspection(s), if any
  .07 Final inspection with the OWNER’S representative to verify final completion of the Work
  .08 Receipt and transmittal of warranties, affidavits, receipts, releases and waivers of liens or bonds indemnifying the OWNER against liens
  .09 Securing and receipt of consent of surety or sureties, if any, to the making of final payment(s)
  .10 Issuance of final Certificate(s) for Payment
G. POST-CONTRACT SERVICES

.49 Maintenance and Operational Programming services consisting of:
  .01 Assistance in the establishment by the OWNER of in-house or contract program(s) of operation and maintenance of the physical plant and equipment
  .02 Arranging for the coordinating instructions on operations and maintenance of equipment in conjunction with manufacturer’s representatives
  .03 Assistance in the preparation of operations and maintenance manual(s) for the OWNER’S use

.50 Start-Up Assistance consisting of:
  .01 On-site assistance in the operation of building systems during initial occupancy
  .02 Assistance in the training of the OWNER’S operation and maintenance personnel in proper operations, schedules and procedures
  .03 Administration and coordination of remedial work by the Construction Contractor(s) after final completion

.51 Record Drawing services consisting of:
  .01 Making arrangements for obtaining from Construction Contractor(s) information in the form of marked-up prints, drawings and other data certified by them on changes made during performance of the Work
  .02 Review of general accuracy of information submitted and certified by the Construction Contractor(s)
  .03 Preparation of record drawings based on certified information furnished by the Construction Contractor(s)
  .04 Transmittal or record drawings and general data, appropriately identified, to the OWNER and others as directed

.52 Warranty Review consisting of:
  .01 Consultation with recommendation to the OWNER during the duration of warranties in the connection with inadequate performance of materials, systems and equipment under warranty
  .02 Inspection(s) prior to expiration of the warranty period(s) to ascertain adequacy of performance of materials, systems and equipment
  .03 Documenting defects or deficiencies and assisting the OWNER in preparing instructions to the Construction Contractor(s) for correction of noted defects

.53 (NOT APPLICABLE) Post-Contract Evaluation consisting of a Project inspection at least one year after completion of the Work; review with appropriate supervisory, operating and maintenance personnel; and analysis of operating costs and related data for evaluation of:
  .01 The initial Project programming versus actual facility use
  .02 The functional effectiveness of planned spaces and relationships
  .03 The operational effectiveness of systems and materials installed

H. SUPPLEMENTAL SERVICES

.54 (NOT APPLICABLE) Special Studies consisting of investigation, research and analysis of the OWNER’S special requirements for the Project and documentation of findings, conclusions and recommendations for:
  .01 Master planning to provide design services relative to further facilities, systems and equipment which are not intended to be constructed as part of the Project during the Construction Phase
  .02 Providing special studies for the Project such as analyzing acoustical or lighting requirements, record retention, communications and security systems

.55 (NOT APPLICABLE) Tenant-Related Services consisting of design and documentation services for tenants or potential tenants relating to:
  .01 Space planning, partition and furnishings locations, and furniture and equipment layouts
  .02 Material and color selections and coordination
  .03 Adaptation of mechanical, electrical and other building systems to meet tenant needs
  .04 Preliminary estimate of Construction Cost
.56 **(NOT APPLICABLE) Special Furnishings Design** services relating to CONSULTANT-designed special furnishings and/or equipment incorporated into or provided for the Project and consisting of:

.01 Design and documentation
.02 Specifications or standards
.03 Management of procurement
.04 Coordination of installation
.05 Purchase on the OWNER’S behalf

.57 **(NOT APPLICABLE) Furniture, Furnishings and Equipment Services** relating to equipment and furnishings not incorporated into the construction of the Project and consisting of:

.01 Establishment of needs and criteria
.02 Preparation of requirements, Specifications and (NOT APPLICABLE) bidding or purchasing procedures
.03 (NOT APPLICABLE) Management of procurement
.04 Coordination of delivery and installation

.58 **(NOT APPLICABLE) Special Disciplines Consultation**, which entails retaining, directing and coordinating the work of special disciplines consultants identified from the following list and as more specifically described in Article 1.6, whose specialized training, experience and knowledge relative to specific elements and features of the Project are required for the Project:

| .01 Acoustics | .14 Elevators/Escalators | .27 Public Relations |
| .02 Audio-Visual | .15 Fallout Shelters | .28 Radiation Shielding |
| .03 CPM Scheduling | .16 Financial | .29 Real Estate |
| .04 Code Interpretation | .17 Fire Protection | .30 Reprographics |
| .05 Communications | .18 Food Service | .31 Safety |
| .06 Computer Technology | .19 Insurance | .32 Sociology |
| .07 Concrete | .20 Historic Preservation | .33 Soils/Foundations |
| .08 Cost Estimating | .21 Legal | .34 Space Planning |
| .09 Demography | .22 Life Safety | .35 Specifications |
| .10 Display | .23 Lightning | .36 Traffic/Parking |
| .11 Ecology | .24 Management | .37 Transportation |
| .12 Economics | .25 Materials Handling | .38 Security |
| .13 Editorial | .26 Psychology | .39 Record Retention |

.59 **(NOT APPLICABLE) Special Building Type Consultation**, which entails retaining, directing and coordinating the work of special building type consultants whose specialized training, experience and knowledge relative to the requirements, planning and design of the Project are required for the Project.

.60 **(NOT APPLICABLE) Fine Arts and Crafts** services relating to acquisition of fine arts or crafts to be a part of the Project and consisting of:

.01 Consultations on selection, commissioning and/or execution
.02 Design integration
.03 (NOT APPLICABLE) Managing procurement
.04 (NOT APPLICABLE) Purchasing fine arts or crafts on the OWNER’S behalf

.61 **(NOT APPLICABLE) Graphic Design** services consisting of:

.01 Design and selection of interior and exterior signs and identifying symbols
.02 Material and color selections and coordination
.03 Documentation of requirements for procurement of graphics work
.04 (NOT APPLICABLE) Managing procurement of graphics work
.05 Coordination of delivery and installation

.62 **(NOT APPLICABLE) Renderings** relating to graphic pictorial representations, as required by the OWNER, of the proposed Project and consisting of:

.01 Black and white elevation view(s)
.02 Black and white perspective view(s)
.03 Elevation view(s) in color
.04 Perspective view(s) in color
(NOT APPLICABLE) Model Construction consisting of preparation of:

.01 Small-scale block model(s) showing relationship of structure(s) to site
.02 Moderate-scale block model(s) of structure(s) designed for the Project
.03 Moderate-scale detailed model(s) of structure(s) designed for the Project showing both interior and exterior design
.04 Large-scale models of designated interior or exterior components of the Project

(NOT APPLICABLE) Still Photography consisting of:

.01 Documentation of existing conditions
.02 Aerial site photography
.03 Photographic recording for study purposes of facilities similar to the Project
.04 Periscope photography of model(s) for the Project
.05 Presentation photography of rendering(s) and model(s) for the Project
.06 Construction progress photography
.07 Architectural photography of the completed Project

(NOT APPLICABLE) Motion Picture and Videotape services relating to preparation of promotional or explanatory presentations of the Project during the design and/or construction phases.

(NOT APPLICABLE) Life Cycle Cost Analysis consisting of assessment, on the basis of established relevant economic consequences over a given time period, of:

.01 A given planning and design solution for the Project
.02 Alternative planning and design solutions for the Project
.03 Selected systems, subsystems or building components proposed for the Project

(NOT APPLICABLE) Value Analysis consisting of the review during design phases of the cost, quality and time influences of proposed building materials, systems and construction methods relative to design objectives in order to identify options for obtaining value for the OWNER.

(NOT APPLICABLE) Energy Studies consisting of special analyses of mechanical systems, fuel costs, on-site energy generation and energy conservation options for the OWNER'S consideration.

(NOT APPLICABLE) Quantity Surveys consisting of:

.01 A detailed determination of the quantities of materials to be used in the Project to establish the basis for the price determination by bidding or negotiations
.02 Making investigations, inventories of materials or furniture, furnishings and equipment, or valuations and detailed appraisals of existing facilities, furniture, furnishings and equipment, and the relocation thereof

Detailed Cost Estimating services consisting of:

.01 Development, when the Contractor Documents are approximately 95% complete, of a Detailed Estimate of the Cost of the Work based on quantity take-offs and unit-cost pricing of materials, labor, tools, equipment and services required for the Work plus estimates for the Construction Contractor's supervision cost, Work required by General and Supplementary Conditions, and an allowance for reasonable Construction Contractor's overhead and profit; or
.02 Continuous development during all phases of design and documentation, of an Estimate of the Cost of the Work for the purpose of greater cost control, culminating in a Detailed Estimate of the Cost of the Work or detailed quantity surveys or inventories of material, equipment and labor

(NOT APPLICABLE) Environmental Monitoring services consisting of:

.01 Monitoring of air, water and other designated components of the environment to establish existing conditions, and the preparation of related analyses and reports

(NOT APPLICABLE) Expert Witness services consisting of preparing to serve and/or serving as an expert witness in connection with any public hearing, arbitration proceeding or legal proceeding.

Materials and Systems Testing relating to testing of components of the completed Project for conformance with Contract requirements and consisting of:

.01 Establishment of requirements
.02 Procurement of testing services
.03 Monitoring testing
.04 Review, analysis and reporting of test results

.74 (NOT APPLICABLE) Demolition Services consisting of:

.01 (NOT APPLICABLE) Preparation of Contract Documents for demolition of existing structures
.02 (NOT APPLICABLE) Managing the bidding/negotiation/award process
.03 Providing field observation and general administration services during demolition
.04 As it applies to forensic demolition for the purposes of this agreement.

.75 (NOT APPLICABLE) Mock-Up Services relating to the construction of full-size details of components for
the Project for study and testing during the design phases and consisting of:

.01 Design and documentation for the required mock-up(s)
.02 Management and coordination of pricing and contracting for mock-up services
.03 Construction administration of mock-up construction activities
.04 Arrangement for testing and monitoring performance of mock-up(s)
.05 Administration of testing and monitoring services
.06 Review, analysis and reporting of results of testing and monitoring services

.76 (NOT APPLICABLE) Coordination of Designated Services with those of non-design professionals, such as
 economists, sociologists, attorneys and accountants, consisting of:

.01 Preparation of economic studies
.02 Condominium documentation
.03 Sociological impact studies

.77 (NOT APPLICABLE) Furniture, Furnishings and Equipment Purchasing/Installation, consisting of:

.01 (NOT APPLICABLE) Purchasing furniture, furnishings and equipment on behalf of the OWNER
 with funds provided by the OWNER
.02 Receipt, inspection and acceptance on behalf of the OWNER of furniture, furnishings, and
equipment at the time of their delivery to the premises and installation
.03 Providing services including travel for the purpose of evaluating materials, furniture, furnishings and
equipment proposed for the Project

.78 (NOT APPLICABLE) Computer Applications related to performing the work of this Project, consisting
of computer program development and/or computer program search and acquisition, plus on-line computer
time charges, for:

.01 Programming .06 Detailed Project scheduling .10 Mechanical analysis and
design
.02 Economic feasibility .07 Market analysis .11 Electrical analysis and
design
.03 Financial analysis .08 Architectural analysis and .12 Production of Drawings
design
.04 Site analysis .09 Structural analysis and .13 Construction cost
design estimating

Under no circumstances can computer hardware or software be a deliverable of this Contract.

.79 (NOT APPLICABLE) Project Promotion/Public Relations relating to presentation of the Project to the
public or identified groups and consisting of:

.01 Preparation of press releases
.02 Preparation of special brochures and/or promotional pieces
.03 Assistance in production and distribution of promotional materials
.04 Presentations at public relations and/or promotional meetings

.80 (NOT APPLICABLE) Leasing Brochures, including preparation of special materials to assist the OWNER
in leasing the Project and consisting of:

.01 Design
.02 Preparation of illustrations and text
.03 Arranging for and managing production
.81 (NOT APPLICABLE) Pre-Contract Administration/Management, consisting of:

.01 Evaluating feasibility of OWNER'S program, schedule and budget of the Work, each in terms of the other
.02 Preparing, updating and monitoring Detailed Project Schedule, including services and contract Work, identifying critical and long-lead items
.03 Preparing, updating and monitoring Detailed Estimates of the Cost of the Work prior to completion of each design phase
.04 Assisting the OWNER in selecting, retaining and coordinating the professional services of surveyors, testing labs and other special consultants as designated
.05 Assisting the OWNER in evaluating relative feasibility of methods of executing the Work, methods of project delivery, availability of materials and labor, time requirements for procurement, installation and delivery, and utilization of the site for mobilization and staging
.06 Assisting the OWNER in determining the method of contracting for the Work; evaluating single versus multiple contracts; advising on categories of separate contracts and provisions for coordinating responsibilities

.82 (NOT APPLICABLE) Extended Bidding services, consisting of:

.01 Developing Bidders' interest in the Project and establishing bidding schedules
.02 Receiving and analyzing bids and providing recommendations as to the OWNER'S acceptance or rejection of bids
.03 Advising the OWNER an acceptance of Construction Contractors
.04 Conducting pre-award conferences (only pre-construction conferences)

.83 Extended Contract Administration/Management, consisting of:

.01 Assisting OWNER in obtaining building permits
.02 Updating and monitoring actual costs against estimates of final costs; assisting OWNER in monitoring cash flow
.03 Providing a detailed schedule showing time periods for each Construction Contractor, including long-lead items and OWNER'S occupancy requirements; updating and monitoring periodically; recommending corrective action when required
.04 Endeavoring to achieve satisfactory performance of Construction Contractors through development and implementation of a quality control program; assisting OWNER in determining compliance with schedule, cost and Contract Documents
.05 Scheduling and conducting periodic project meetings with the OWNER, Construction Contractor and Subcontractors
.06 Assisting OWNER in maintaining cost accounting records
.07 Maintaining a log including conditions at site and job progress, periodically including percentage of completion of each contract
.08 (NOT APPLICABLE) Assisting the OWNER in coordinating and scheduling activities of the separate Construction Contractors
.09 Maintaining and periodically updating a record of all significant changes made during construction; maintaining record copies of Contract Documents; maintaining samples and lay-out drawings at the job site

.84 Prepare quality assurance special inspection matrix for any necessary materials testing or special inspections.

.85 Prepare legal descriptions of right of way as necessary for project.

.86 Prepare warranty matrix spreadsheet showing all warranties required, terms, dates and products set up by the most current 49 Division Masterformat system.

.87 Provide detailed sequence of controls for all mechanical and control systems.

.88 Prepare and submit an application for authority to construct and operate all required emissions producing equipment.

.89 (NOT APPLICABLE) Develop, submit, and obtain parcel map to create separate parcel from main parcel.

.90 Determine accessibility regulations, design toward them, and create a checklist.

.91 (NOT APPLICABLE) Provide Title Report to Owner. Consultant shall use information in title report to determine site constraints and design development.
.92 *(NOT APPLICABLE)* Energy Rebates & Programs Applications.
Complete all required applications, calculations, reports, and submit/revise.
EXHIBIT B
REQUIRED SUBMITTALS

The CONSULTANT shall provide the following submittals, delivered to the OWNER unless noted otherwise. Reference the entire Contract and other Exhibits for additional submittals and requirements.

1. **PRE-DESIGN PHASE**
   - .01 Design Schedule

2. **SITE ANALYSIS PHASE**
   - .01 Geotechnical Report
   - .02 Site Survey
   - .03 *(NOT APPLICABLE)* Hazardous Material Survey
   - .04 Programming Report
   - .05 *(NOT APPLICABLE)* Operating Cost Analysis
   - .06 *(NOT APPLICABLE)* LEED Credits Report
   - .07 Site Utilization Report
   - .08 Construction Cost Estimate
   - .09 Conceptual Design Drawings

3. **SCHEMATIC DESIGN PHASE**
   - .01 Schematic Design Drawings and Specification Outline
   - .02 *(NOT APPLICABLE)* LEED Credits Report
   - .03 Construction Cost Estimate

4. **DESIGN DEVELOPMENT PHASE**
   - .01 Drawings and Specifications
   - .02 Presentation Drawings, mounted
   - .03 Materials Board
   - .04 Flood/Hydrology Report draft, if required by governing authorities
   - .05 Construction Cost Estimate
   - .06 *(NOT APPLICABLE)* LEED Credits Report

5. **CONSTRUCTION DOCUMENT PHASE**
   - .01 If required by governing authorities, Flood/Hydrology Reports submitted to Regional Flood Control and Clark County Land Development Section, and written notice to the OWNER of the submittal dates for each.
   - .02 If required by governing authorities, Traffic Study submitted to jurisdictional Traffic/Electrical Field Operations Section, and written notice to the OWNER of the submittal date.
   - .03 Nevada Power, Embroq, and Las Vegas Valley Water District applications to their design departments, and written notice to the OWNER of the submittal dates for each.
   - .04 Construction Drawings and Specifications as described in the Scope of Services *(Exhibit A)* at 60%, 95%, and 100% completion, utilizing the OWNER’S standard cover sheet and title block, including Construction Cost Estimates with 60%, 95%, and 100% submittals.
   - .05 Exterior Light Fixture Cut Sheets at 95% Submittal.
   - .06 Building Permit Application.
   - .07 Building Department and Land Development plan review permit applications.
   - .08 Construction Drawings and Specifications ready for issuance of all required permits and printing for bidding phase distribution, which incorporate all governmental, agency, and utility company design comments and corrections.
   - .09 Table of Contents listing Sections 1 through 50, with print date indicated (if sections have different dates, individual dates must be indicated for each section).
   - .10 Drawing list with sheet title and issue date for each sheet.
   - .11 Specifications contributing authors’ stamp and signature sheet.
   - .12 *(NOT APPLICABLE)* Operating Cost Analysis, as required by NRS 338.190 if an occupied building over 20,000 square feet.
   - .13 *(NOT APPLICABLE)* LEED Credits Report.

6. **BIDDING OR NEGOTIATIONS PHASE**
   - .01 Requested and necessary addenda.
7. CONTRACT ADMINISTRATION SERVICES

.01 If requested by the Construction Contractor (including its subcontractors acting through the Construction Contractor), provide the Construction Contractor with copies of the drawings including the civil topography, survey, horizontal control, and other related design work produced by the CONSULTANT under this Contract, in AutoCAD file format suitable for use by the Construction Contractor for its intended use including field survey layout work for the Project. The CONSULTANT shall make this a contractual obligation of its subconsultant(s). The CONSULTANT may require the Construction Contractor to sign a hold harmless agreement as a condition for releasing the electronic files.

.02 Meeting Minutes
.03 Drainage Compliance Report
.04 (NOT APPLICABLE) LEED Credits Reports

8. POST-CONTRACT SERVICES

.01 Final Record Drawings in both electronic and paper format
.02 (NOT APPLICABLE) LEED Credits Reports and Certification

9. SUPPLEMENTAL SERVICES

.01 Renderings relating to graphic pictorial representations, as required by the OWNER, of the proposed Project
.02 Cost Estimates
.03 Quality Assurance (QAA) Special Inspection Matrix
.04 Legal Descriptions
.05 Warranty Matrix
.06 Sequence of Controls
.07 Accessibility Checklist
EXHIBIT C
HOURLY RATE SCHEDULE
(FOR ADDITIONAL SERVICES AND ADDITIONAL REIMBURSEABLE EXPENSES)

The following discounted hourly rates are to be used as the basis for negotiation of additional services as required. These labor rates are valid for the duration of the Project and include salary costs, overhead, administration and profit.

CONSULTANT HOURLY RATES

The following hourly rates are to be used as the basis for negotiation of additional services as required. These labor rates are valid for the duration of the Project and include salary costs, overhead, administration and profit.

ADDITIONAL SERVICES

None authorized or anticipated as of the commencement date of this Contract. Any additional service would be required to be added to the Contract in writing in the form of an amendment approved by the OWNER. For additional services of subconsultant(s), the OWNER shall compensate the CONSULTANT a multiple of one and one tenth (1.10) times the amounts billed to the CONSULTANT for such services. Future written additional services authorizations may be issued by the OWNER in compliance with the above Hourly Rate Schedules. Site specific seismic testing and investigation to determine the structural requirements under the building code would be an additional service, added by amendment to the Contract pursuant to Section IV of the Contract.

REIMBURSABLE EXPENSES

Reimbursable expenses for this project are anticipated to include printing costs of fifteen (15) construction document sets, five (5) individual compact discs of the Bid Set, and plan check fees up to $50,000. The CONSULTANT is not responsible for plan check fees beyond the reimbursable amount. Any additional reimbursable expense would be required to be added to the Contract in writing in the form of an amendment approved by the OWNER. For reimbursable expenses of the CONSULTANT, the OWNER shall compensate the CONSULTANT a multiple of one and one tenth (1.10) times the actual direct costs incurred by the CONSULTANT. This multiple includes all compensation for overhead and profit related to the reimbursable expenses.

EXHIBIT E
KEY PERSONNEL LIST

OWNER PERSONNEL

PROJECT MANAGER: PETER UMOH, DESIGN & CONSTRUCTION ADMINISTRATOR

PROJECT REPRESENTATIVE: PETER UMOH, DESIGN & CONSTRUCTION ADMINISTRATOR

CONSULTANT'S PROJECT STAFF

The following personnel will be assigned by the CONSULTANT to work on the Project. Any changes require OWNER’S written approval.

PROJECT REPRESENTATIVE: Michael Thompson, AIA

PRINCIPAL: J. Windom Kimsey

PROJECT CONSULTANT:

LEED PROJECT ADMINISTRATOR (Accredited by USGBC): NOT APPLICABLE

CONSULTANT'S SUBCONSULTANT(S)

The following subconsultant(s) will be contracted with and utilized by the CONSULTANT to work on the Project. Any changes require OWNER approval.

ACCESSIBILITY CONSULTANT: ADA Professional Team

CIVIL ENGINEER: Poggemeyer Design Group, inc.

STRUCTURAL ENGINEER: M.A. Engineering, inc.

MECHANICAL ENGINEER: Sigma Mechanical Engineering Consultants

ELECTRICAL ENGINEER: TJK Consulting Engineers, inc.

LANDSCAPE DESIGN: Southwick Landscape Architects

INDEPENDENT COST ESTIMATOR (NOT the CONSULTANT): ESG Construction Consultants

INTERIOR DESIGN: (Not Applicable)

SKATEPARK DESIGN: (Not Applicable)

AQUATIC DESIGN: (Not Applicable)

GEOTECHNICAL ENGINEER: Terracon

LAND SURVEYOR: Poggemeyer Design Group, inc.

BASEBALL FIELD CONSULTANT: PBK Sports
EXHIBIT F
DESIGN SCHEDULES

I. PROJECT MEETINGS

A. Administrative and procedural requirements for project meetings, including, but not limited to, following:

1. Pre-Design Scheduling Conference (During Contract Negotiations)
2. Design Baseline Schedule Review Conference
3. Progress meetings

1. PRE-DESIGN SCHEDULING CONFERENCE (COMPLETED PRIOR TO AWARD OF CONTRACT):

A. The CONSULTANT and OWNER scheduled a Pre-Design Conference before the award of the Contract. The conference was held at a convenient location approved by the OWNER.

B. The OWNER and CONSULTANT conducted the meeting and review with the CONSULTANT their responsibilities and personnel assignments.

C. Attendees: Authorized representatives of the OWNER, CONSULTANT and its subconsultants, CONSULTANT’S scheduler, and other concerned parties. Participants at conference become familiar with Project and authorized to conclude matters relating to the design.

D. The OWNER provided the CONSULTANT with a standard scheduling template.

E. Agenda: Discussed items of significance, including, but not limited to the following:

   1. Team Introduction (including the CONSULTANT(S) scheduler)
   2. Project Overview
   3. Project Communication
   4. Authorities and Responsibilities
   5. Progress Meetings
   6. Design Schedule Requirements
   7. Standard Design Schedule Template
   8. Submittal Requirements and Review Procedures
   9. Time Extension Procedures
   10. Request for Information Procedures
   11. Substantial Completion

2. DESIGN BASELINE SCHEDULE REVIEW CONFERENCE:

A. Within the first ten (10) calendar days of the Contract approval, authorized representatives of the OWNER, CONSULTANT and its subconsultants, manufacturers, suppliers, and other concerned parties will meet for the specific purpose of reviewing the Project’s Design Baseline Schedule.

B. Agenda: Discuss items of significance, including, but not limited to the following:

   1. Team Introduction
   2. Introduction of the Design Consultants scheduler
   3. Project Overview and Periods of Performance
   4. Project Communication
   5. Design Schedule Requirements
   6. Standard Design Schedule Template
   7. Project Milestones
   8. Design Deliverables
   9. Submittal Requirements and Review Procedures
   10. Establish the timing of Progress Updates and Meetings

3. PROGRESS MEETINGS:

A. The CONSULTANT will conduct (TBD) weekly or bi-weekly progress meetings at a day and time set by the OWNER as required to keep the project on schedule, to review progress, and to solve or avert potential problems. Minutes of meeting will be distributed to the attendees by the end of the next business day. Revisions or corrections are to be returned within two working days of receiving the minutes.
B. Attendees: Representatives from the OWNER and CONSULTANT will be represented at these meetings. Participants at the conference will be familiar with Project and authorized to conclude matters relating to the Work.

C. CONSULTANT will present, discuss the progress since the last meeting; determine where each activity is in relation to Project Approved Baseline Schedule, whether on time or ahead or behind schedule; determine how the activities behind schedule will be expedited; secure commitments from parties involved to do so; discuss whether schedule revisions are required to ensure that current and subsequent activities will be completed within Contract time.

D. Agenda: Discuss items of significance, including, but not limited to the following:

1. Review and correct or approve minutes of previous progress meeting.
2. Review other items of significance that could affect progress.
3. Review and current status of the CONSULTANT’S (TBD) 30 calendar day work plan.
4. Review of the CONSULTANT’S near term deliverables.
5. Include other topics for discussion as appropriate to status the Project.
6. Initiate whatever actions are necessary to resolve impediments to perform the Work.

II. GENERAL

A. Administrative and procedural requirements for schedules required for proper performance of Work including, but not limited to the following:

1. PROGRESS OF WORK

A. It is understood and acknowledged by all parties that the Work cannot be efficiently managed without the use of a Design Schedule, updated frequently and utilized by the CONSULTANT for the planning, management and coordination of the Work. It is further acknowledged that the OWNER will be made aware of any event or circumstance that negatively affects the CONSULTANT’S ability to complete the project as agreed in the OWNER approved Exhibit F Baseline Schedule. The Work will be executed with such progress as required to prevent any delay to the completion of the Contract. Therefore, all requirements of this Contract as to scheduling and reporting, as well as time limits for completion of the Work, are of the essence.

2. SCHEDULE METHODOLOGY

A. The scheduling method to be used shall be a Critical Path Method schedule in the form of an activity on node Precedence Diagram Network (PDN) with capabilities of identifying the critical path.

B. The scheduling system to be utilized will be a Primavera scheduling solution. These include, Project Planner Version 3.1 or later, Primavera Suretrak 3.0, Primavera Contractor, or Primavera P6 or later. This will be referred to as the Scheduling System. The system will be capable of handling, processing, printing, and plotting data to satisfy all requirements of this Section. The CONSULTANT will maintain the Scheduling System, the schedule, and the scheduling staff required to support and maintain the system and processes.

3. INTEGRATED PROJECT SCHEDULE TEMPLATE

A. The work assigned to the selected CONSULTANT represents one of the nine phases typically performed in the life cycle of the projects managed by the OWNER’S representative (Clark County Real Property Management). A critical component of the OWNER’S project management plan is the coordination and forecasting of the work as it transitions from one phase to the next. To facilitate this coordination the OWNER has developed a scheduling template integrating each of the phases into a master project plan. All project participants, including the selected CONSULTANT shall develop a Baseline Schedule with-in the structure established by the Schedule Template.

B. It is expressly understood the OWNER’S intent in providing the Schedule Template to the selected CONSULTANT is not to dictate how the design is performed. The Schedule Template simply provides the frame work and integration points for which the Baseline Schedule is to be developed and maintained.
C. No change, modification, substitution or updating of the CONSULTANT'S Baseline Schedule will be performed by the CONSULTANT without explicit written permission by the OWNER. Acceptance of any such Schedule, report or update by the OWNER serves only to acknowledge that the CONSULTANT has fulfilled the contractual requirement to submit the same; in doing so, the OWNER assumes no responsibility for any loss or damage to the CONSULTANT and the CONSULTANT remains solely responsible for the choice of sequences, durations, logic, and procedures reflected therein.

D. The CONSULTANT, with approval of the OWNER, will modify the Integrated Project Schedule Template as required to develop the Design Schedule for the work in accordance with the requirements of this Section. The purpose of the Design Schedule shall be to:

1. Depict the CONSULTANT’S plan for performing the Work.
2. Assure adequate planning, scheduling, and reporting during execution of the design and related activities so they may be prosecuted in an orderly and expeditious manner, within the Contract time and the Milestones stipulated by the Contract.
3. Assist the CONSULTANT and OWNER in monitoring the progress of the Work and evaluating proposed changes to the Contract and the Design Schedule.
4. Assist in detecting problems for the purpose of taking corrective action and to provide a mechanism or tool for determining and monitoring such corrective actions.
5. Coordinate the execution of following project phases.

E. DESIGN SCHEDULE CODING STRUCTURE

1. The OWNER'S coding dictionary included in the Schedule Template facilitates the OWNER'S reporting requirements. These four codes included in the Schedule Template shall not be altered. Additional coding may be added by the CONSULTANT as needed.

4. DESIGN CONSULTANT’S PROJECT SCHEDULER

A. The CONSULTANT is required to employ or retain the services of a Project Scheduler. The Project Scheduler shall have at least five years of verifiable experience as the person primarily responsible for preparing and maintaining detailed project schedules on projects of the same or similar nature as this project.

B. The Project Scheduler is required to attend all meetings pertaining to scheduling and progress of the work.

C. Within five (5) calendar days after the Notice to Proceed, the CONSULTANT shall provide a statement to the OWNER with the following:

1. Identification, qualifications, and experience of the CONSULTANT’S Project Scheduler and all other members of the CONSULTANT’S scheduling staff.
2. The OWNER reserves the right to disapprove any candidate proposed for the Project.
3. The OWNER reserves right to remove, without rights to work on the project, any member of the CONSULTANT’S scheduling staff that is, in the OWNER’S opinion, incompetent in scheduling.

D. Related Sections: Other Division 1 Specification Sections including, but not limited to, following:

1. Section TBD Payment Procedures
2. Section TBD Submittal Schedule
3. Section TBD Schedule of Values

III. DESIGN SCHEDULE MILESTONES

A. The OWNER will provide project specific time constraint Milestones (if required) to support the phases following the design effort. The CONSULTANT shall maintain these Milestones in the Design Schedule.

B. The Milestones listed in these specifications, or elsewhere in the CONSULTANT’S Contract, represent only the major milestones. The Milestone completion durations indicated are considered essential to the satisfactory performance of this Contract and to the coordination of all Work on the Project.
C. Refer to the Contract for the project required Milestones and durations. Earlier completion dates may be established by the CONSULTANT subject to approval by the OWNER. The OWNER reserves the right to require the CONSULTANT to expedite the work in accordance with the specified Milestone durations. The CONSULTANT shall create all Project Milestones deemed necessary by the OWNER, including but not limited to the following:

1. Develop and Submit Baseline Schedule
2. Schematic Drawings
3. Design Development
4. 60% CD's
5. 95% CD’s

IV. SUBMITTALS

A. DESIGN SCHEDULE BASELINE SCHEDULE: Within the first ten (10) working days of the Contract the CONSULTANT shall meet with the OWNER to develop a digital copy of the Baseline Design Schedule. The Design Schedule Update shall reflect the CONSULTANT’S plan for completing the work included in the scope of the Contract.

B. DESIGN SCHEDULE MONTHLY UPDATES: On the third Friday of each month, the CONSULTANT shall submit a digital copy of the current progress of the Design Schedule status through the middle of the month. The status shall include actual dates for activities that have started and/or completed, expected completion dates for activities in progress, and proposed durations and sequence for the remaining activities in the Design Schedule. The Design Schedule Update shall reflect the CONSULTANT’S plan for completing the remaining work included in the scope of the Contract.

EXHIBIT G
CBE NO. 603318-14
MOUNTAIN'S EDGE PARK: ADULT BALL FIELDS AND SITE IMPROVEMENTS

INSURANCE REQUIREMENTS

TO ENSURE COMPLIANCE WITH THE CONTRACT DOCUMENT, CONSULTANT SHOULD FORWARD THE FOLLOWING INSURANCE CLAUSE AND SAMPLE INSURANCE FORM TO THEIR INSURANCE AGENT PRIOR TO PROPOSAL SUBMITTAL.

1. Format/Time: The CONSULTANT shall provide OWNER with Certificates of Insurance, per the sample format (page B-3), for coverages as listed below, and endorsements affecting coverage required by this Contract within ten (10) business days after the award by the OWNER. All policy certificates and endorsements shall be signed by a person authorized by that insurer and who is licensed by the State of Nevada in accordance with NRS 680A.350. All required aggregate limits shall be disclosed and amounts entered on the Certificate of Insurance, and shall be maintained for the duration of the Contract and any renewal periods.

2. Best Key Rating: The OWNER requires insurance carriers to maintain during the contract term, a Best Key Rating of A VII or higher, which shall be fully disclosed and entered on the Certificate of Insurance.

3. Owner Coverage: The OWNER, its officers and employees must be expressly covered as additional insureds except on workers' compensation. The CONSULTANT'S insurance shall be primary as respects the OWNER, its officers and employees.

4. Endorsement/Cancellation: The CONSULTANT'S general liability and automobile liability insurance policy shall be endorsed to recognize specifically the CONSULTANT'S contractual obligation of additional insured to OWNER and must note that the OWNER will be given thirty (30) calendar days advance notice by certified mail “return receipt requested” of any policy changes, cancellations, or any erosion of insurance limits. Either a copy of the additional insured endorsement, or a copy of the policy language that gives Clark County automatic additional insured status must be attached to any certificate of insurance.

5. Deductibles: All deductibles and self-insured retentions shall be fully disclosed in the Certificates of Insurance and may not exceed $25,000.

6. Aggregate Limits: If aggregate limits are imposed on bodily injury and property damage, then the amount of such limits must not be less than $2,000,000.

7. Commercial General Liability: Subject to paragraph 6 of this Exhibit, the CONSULTANT shall maintain limits of no less than $1,000,000 combined single limit per occurrence for bodily injury (including death), personal injury and property damages. Commercial general liability coverage shall be on a “per occurrence” basis only, not “claims made,” and be provided either on a Commercial General Liability or a Broad Form Comprehensive General Liability (including a Broad Form CGL endorsement) insurance form. Policies must contain a primary and non-contributory clause and must contain a waiver of subrogation endorsement.

8. Automobile Liability: Subject to paragraph 6 of this Exhibit, the CONSULTANT shall maintain limits of no less than $1,000,000 combined single limit per occurrence for bodily injury and property damage to include, but not be limited to, coverage against all insurance claims for injuries to persons or damages to property which may arise from services rendered by CONSULTANT and any auto used for the performance of services under this Contract.

9. Professional Liability: The CONSULTANT shall maintain limits of no less than $1,000,000 aggregate. If the professional liability insurance provided is on a Claims Made Form, then the insurance coverage required must continue for a period of 2 years beyond the completion or termination of this Contract. Any retroactive date must coincide with or predate the beginning of this and may not be advanced without the consent of the OWNER.

10. Workers’ Compensation: The CONSULTANT shall obtain and maintain for the duration of this contract, a work certificate and/or a certificate issued by an insurer qualified to underwrite workers’ compensation insurance in the State of Nevada, in accordance with Nevada Revised Statutes Chapters 616A-616D, inclusive, provided, however, a CONSULTANT that is a Sole Proprietor shall be required to submit an affidavit (Attachment 1) indicating that the CONSULTANT has elected not to be included in the terms, conditions and provisions of Chapters 616A-616D, inclusive, and is otherwise in compliance with those terms, conditions and provisions.

11. Failure To Maintain Coverage: If the CONSULTANT fails to maintain any of the insurance coverages required herein, OWNER may withhold payment, order the CONSULTANT to stop the work, declare the CONSULTANT in breach, suspend or terminate the Contract, assess liquidated damages as defined herein, or may purchase replacement insurance or pay premiums due on existing policies. OWNER may collect any replacement insurance costs or premium payments made from the CONSULTANT or deduct the amount paid from any sums due the CONSULTANT under this Contract.

12. Additional Insurance: The CONSULTANT is encouraged to purchase any such additional insurance, as it deems necessary.
13. **Damages:** The CONSULTANT is required to remedy all injuries to persons and damage or loss to any property of OWNER, caused in whole or in part by the CONSULTANT, their subcontractors or anyone employed, directed or supervised by CONSULTANT.

14. **Cost:** The CONSULTANT shall pay all associated costs for the specified insurance. The cost shall be included in the price(s).

15. **Insurance Submittal Address:** All Insurance Certificates requested shall be sent to the Clark County Purchasing and Contracts Division, Attention: Insurance Coordinator. See the mailing address specified in Item 16.8 below.

16. **Insurance Form Instructions:** The following information must be filled in by the CONSULTANT'S Insurance Company representative:

1. Insurance Broker's name, complete address, phone and fax numbers.
2. CONSULTANT'S name, complete address, phone and fax numbers.
3. Insurance Company's Best Key Rating
4. Commercial General Liability (Per Occurrence)

10. Appointed Agent Signature to include license number and issuing state.
**CERTIFICATE OF LIABILITY INSURANCE**

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFFRS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURERS, AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

Contract Time: Current ______ days, This Change_______ days, Revised _______ days, Revised _______ days = Calendar Days

It is understood and agreed that the above change in the contract price will compensate the Consultant for all direct costs which will be incurred in performing the changed work and for all indirect costs which will be incurred as a result of the impact or affect of the changed work or unchanged work. It is further understood and agreed that performance of the changed work will not delay completion of this project, nor cause the Consultant to accelerate performance, and that therefore, the Contract time remains unchanged, except as duly modified by this and previous Additional Service Requests (ASR), if any, and the Consultant agrees to waive damages due to delay of completion. By reason of this proposed change, ______ days extension or decrease of time will be allowed. The new design schedule completion date is ________.

**CONSTRUCTION PHASE**

- Plans Clear and Detailed Sufficiently
- Drawing Reflect True Conditions
- Plans/Specs Accurate and Coordinated
- Design Constructability
- Cooperativeness and Responsiveness
- Timeliness and Quality of Processing Submittals (One Each: RFI, RFP, CO, Pay, APP, CCD, NOR, Warranty Matrix, O&M Manuals, Meeting Minutes)
- Product & Equipment Selections Readily Available
- Field Consultation and Investigations
- Quality of Construction Support Services
- Design Related No. of Field Change Orders
- No. of Credible Request For Interpretations (RFI)
- Number of Design Related Change Orders
- Design Cost
- Technical knowledge of design/construction techniques, means and methods

**EXPERIENCE & KNOWLEDGE**

- Previous experience of assigned personnel with services required on project
- Innovative thinking, appropriate solutions and alternatives

**COMMUNICATIONS**

**PERSONAL**

- Frequency of Contacts, status reports, inquiries, ("How are things going?"), etc.

**WRITTEN**

- Complete, clean, neat and concise writing

**ACCESSIBILITY OF KEY PERSONNEL**

- Readily Available

- Convenience of leaving/receiving detailed messages

**PUBLIC RELATIONS**

- Presentations to Stake-holders and interested parties
- Empathy for affected parties
