**Recommendation:**

That the Board of Hospital Trustees approve the Allied Health Practice Indicators authorized by University Medical Center of Southern Nevada’s Allied Health Committee on January 7, 2009.

**FISCAL IMPACT:**

None

**BACKGROUND:**

In January 7, 2009, UMC’s Allied Health Committee approved the amendments made to the Allied Health Practice (AHP) Indicators. This action is in compliance with the Bylaws of the Medical and Dental Staff, American Medical Association and The Joint Commission.

Revisions made (highlighted in bold) were to improve the in-house functions and categories of applicants.

AHP Indicators is the process wherein the verification of credentials and the granting of clinical privileges confirm that the applicants of Medical Staff are competent and qualified to provide specific levels of care in the hospital.

Respectfully submitted,

Kathleen Silver  
Chief Executive Officer  

2/17/2009
