Recommendation:

That the Board of County Commissioners approve Amendment One to the contract with The Sidwell Company, to provide Parcel Editing Software And Services For Assessor Cadastral Geographic Information System Database; and authorize the Chief Financial Officer or his designee to sign the amendment; or take other action as appropriate.

FISCAL IMPACT:

Amendment One represents an increase of $10,560, for a new contract amount of $338,733 (4380.000-9930913000-679220-DM08AT105002).

BACKGROUND:

On July 15, 2008, the Board of County Commissioners approved the contract with The Sidwell Company, to provide the Assessor's Office with a Geographic Information System (GIS) data conversion and data modification system for an industry standard platform of GeoDatabase. The Sidwell Company will also provide enhanced editing tools and build automated workflow processes specific to the GeoDatabase and maintenance of the parcel layer of the Countywide GIS database. This solution will provide integration between the GIS and the Assessor’s Computer Assisted Mass Appraisal project currently underway, and will greatly enhance the County’s way of managing our information systems and processes.

This Amendment One will incorporate Change Order 001 for additional tools for this application. There is no change to the term of this contract.

These modifications and costs were reviewed by the Assessor and Information Technology Departments’ staff, and were found equitable for the work involved. The attached Amendment document details the work and costs involved.

Prepared by: Thomas E. Boldt

Respectfully submitted,

YOLANDA KING
Director of Budget & Financial Planning
