Recommendation:

Approve and authorize the County Manager or her designee to sign a professional environmental services contract between Clark County and NewFields Companies, LLC (Ken MacDonald, Partner), to restore and rehabilitate approximately 0.86 acres of wetlands as a required condition of the 404 Permit issued by the U.S. Army Corps of Engineers for the Muddy River Bridge at Gubler Avenue.

FISCAL IMPACT:

$224,850 Public Works Regional Improvements/RFCD - Fund 4990.992 / PW.FMOAD01

BACKGROUND:

On December 19, 2006, the Clark County Public Works Department received authorization from the U.S. Army Corps of Engineers (Corps) to construct a free-span bridge over the Muddy River along Gubler Avenue in Overton, Nevada. The Corps permit conditioned Clark County to mitigate the projects impact to the waters of the United States by implementing an approved mitigation plan entitled, Gubler Bridge Mitigation and Monitoring Plan, dated December 2006, prepared by NewFields Companies, LLC.

On July 21, 2008, County Public Works sent out a notice of completion for the Muddy River Bridge at Gubler Avenue.

County staff has negotiated the attached professional environmental services contract with NewFields Companies, LLC. The contract describes the services to be provided and the stipulated terms.

The District Attorney’s Office has reviewed and approved this contract as to form.

Respectfully submitted,

DENIS CEDERBURG
Director of Public Works
DC:JJC:SS:GMS03-03-09
Attachment (Contract)

3/3/2009
