V. COMMUNITY CONCERNS

A. Chair person Monaco will sign the street light opposition letter to be sent to James Caviola, P.E. of the C. A. Group, Inc.. Among the points of concern in the letter included: The lighted areas may attract wildlife onto the road creating additional traffic hazards, lighting will be intrusive to the residents of the area and may lead to reduced property values, additional lighting may engage loitering and crime, and lighting may lead to increased driving speeds and greater potential for accidents. The high speeds, along with the curves on the highway, were also addressed in this letter. Monaco and Mraz were questioning whether we could have this area declared a historical site due to the agave pits and the Old Spanish Trail. Both pros and cons were discussed regarding this and Monaco said he would research information regarding this possibility.

B. Law Enforcement Officer of the Forest Service, Jarvis Alexander, will bring us a reader board for the highway to deter speeding motorists. LVMPD signs are all being used at the present.

C. Monaco is still working on his draft a letter to NDOT for the board to review regarding lowering the speed limit and other such items of concern, and would welcome anyone’s input at this time. It was suggested that he draft the letter first and then we will review it and present any input needed.
