BACKGROUND:

This agreement provides for an intergovernmental transfer (IGT) from Clark County to the Nevada Medicaid program in excess of the required State match relating to the Inpatient Upper Payment Limit (IP UPL), Outpatient Upper Payment Limit (OP UPL), Graduate Medical Education (GME), and Managed Care Organization (MCO) capitated payments made to University Medical Center, as well as for other general Medicaid expenditures. CMS guidelines require an IGT amount in excess of the State’s matching share be split into a separate agreement. This requirement provides delineation between the voluntary contribution from the local government entity and the State’s federally required matching funds.

Nevada Revised Statue (NRS) 277.180 authorizes any one or more public agencies to contract with any one or more other public agencies. This agreement is effective for three (3) years, beginning July 1, 2018, ending June 30, 2021.

Respectfully submitted,

Jessica L. Colvin, Chief Financial Officer
